RETERNITI

Hold Your Pet Close

After they've gone

Losing a best friend shouldn't mean saying goodbye forever

Remember them with a Reterniti stone

Reterniti is an innovation in pet memorialisation developed in New Zealand and Australia.

Your pet's ashes are converted into a tasteful yet discrete Stone or smaller Pebbles.

Unlike ashes, you can hold your pet's Stone close, place them somewhere memorable or with Pebbles keep them with you.

You never have to say goodbye.

And you'll never forget them.

Reterniti Stone

Reterniti Pebble

STYLISH, RESTRAINED, UNIQUE

Choose either a full size Reterniti Stone using all the ashes or split into multiple Pebbles for family & friends.

Each is handmade, with your pet's name laser etched on the top.

Reterniti Stones rest upon a bed of lambs wool, which in turn sits upon a hand-turned solid wood display plinth.

Reterniti Pebbles come within their own travel pouch.

You choose where you wish to place your Reterniti Stone or distribute Reterniti Pebbles.
